## 3. Import Demo Content

### 3.1. Click “MyHome Demo Importer”

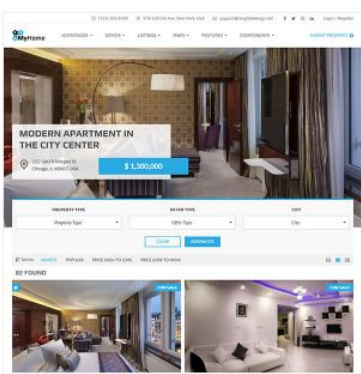

The screenshot shows the WordPress dashboard. On the left is a dark sidebar menu with icons and labels: MyHome Theme, MyHome Panel, MyHome Demo Importer (highlighted with a green arrow), Posts, Properties, Media, Clients, Testimonials, Pages, and Comments. The main content area is white and contains a 'Get Started' section with a blue button labeled 'Customize Your Site'. Below this is a news section titled 'AppsCreo News' with a headline 'Introducing Follow Me Bar: Social Share Buttons' and a date 'Sept'.

IMPORTANT – Loading Demo will remove all of your database content

Before you start importing demo make sure you activated all required plugins.

### 3.2. Choose the demo, then click the "Import demo" button on its card

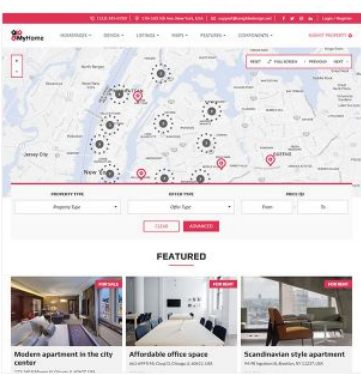

Demos:

**Default (v1)**

3.4. You will see below message when it's done

**You have successfully loaded MyHome Demo**

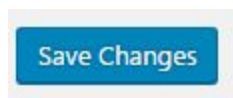

Your website will look exactly the same as the demo online. The only difference is that some unnecessary links in the menu will not be imported e.g. links to other demos or link to features presentation. If user panel and submit property ( <http://yourlink/panel/> ) is not working you need to change "Permalinks" (picture on next page):  
Hover over the "Settings" tab in the left sidebar and click "Permalinks"

Select “Post name”

Click the “Save Changes” button
